Altran Challenge

Engineer 4.0 of the Future

Our collaborator Altran kindly offers one full time intership for the students attending SC-Camp 2017 to join them during six months (from January 1st 2018 to June 30th 2018) in their R&D&I offices in Cádiz through Altran's BK2 program. A competition will be organized by Altran and the internship will be offered to the winner.

Challenge

Are you an Engineer 4.0 of the Future?

Altran is looking for talented minds willing to create and define new IoT initiatives related with industrial environments: manufacturing, supply chain, assembly, quality, logistics… More specifically, we are interested and focused in smart sensors solutions.

Submit your application, idea or proposal, and feel free to also go the extra mile by sending us a video, script or prototype.

The owner of the best idea will join our team in Cádiz at Altran's Innovation Center for Advanced Manufacturing for a six months internship (from January 1st 2018 to June 30th 2018), having the opportunity to develop their solution and others!

Contest Rules

- The competition is open to all students of legal age, registered that are in attendance at the SC-Camp 2017 in Cádiz University.
- The project, prototype and/or application must be ORIGINAL and of its own authorship. The contestants specifically guarantee that the idea, application, project or prototype submitted does not infringe any intellectual property. Altran will not be responsible for any possible infringements of intellectual property or other legal infractions that may occur on the part of the developer of the technological solution, being the participant the sole responsible for them.
- The industrial and intellectual property rights (IP Rights) of all the ideas, projects, prototypes and applications submitted shall vest in and belong to Altran. Also, Altran will be able to register and exploit the all the aforementioned IP Rights with no limitation. The contestant will take all such steps and execute all such assignments and other documents as Altran may reasonably require to ensure, so that all the IP Rights vests in and belongs to Altran for the registration or protection of the IP Rights.
- The contestants guarantee the accuracy and veracity of data submitted. In case any of the data provided is inaccurate Altran will be able to disqualify the contestant.
- By accepting the terms of the competition, the contestant unconditionally agrees with the Contest Rules and with Altran's data protection policy. By participating in the competition the contestant expressly authorizes Altran to use its name and image, as well as the idea of the application, in internal and/or communication actions.
- To participate in the Contest, the participant must send his/her proposal, synthesized, in English and in PDF format, to luna.ortegatorres@altran.com, with the subject "SC-Camp 2017 Competition" before 23:00h of December 1st 2017. The contestant also has to add the name of his/her project, as well as his/her name and surname, e-mail, telephone, university and nationality.
- The winner will be chosen by a team of Altran's engineers, with wide experience and full knowledge on the matter of the Contest. The name of the winner will be published in the web page (www.sc-camp.org) on December 11st. The decision of Altran will not be appealable.
- Altran reserves the right to modify these Contest rules and to call off the Contest until December 1st 2017.

If you have further questions about the contest, do not hesitate to contact us!
